EQC Enforcement

November 14, 2002

IV. ANALYSIS: The Bureau of Land & Waste Management/Hazardous Waste Enforcement entered into an agreement with Greenville County to conduct remedial activity and corrective actions to address longstanding matters of regulatory concern relating to a landfill located in the county. No violations were attributed to Greenville County and no civil penalty was assessed.

A significant regulatory action was completed by the Bureau of Air Quality during this reporting period involving SMI Steel, et al. This order, 02-094-A, began as separate, individual actions, but there was an agreement to combine the regulatory issues pertaining to each of these commonly owned and controlled facilities under one order. A civil penalty in the amount of \$325,000 was assessed as part of this action.

Two (2) municipalities were the subjects of enforcement by the Bureau of Water/Water Pollution Enforcement, which addressed persistent and unresolved issues of regulatory concern. Specific corrective actions have been initiated and civil penalties totaling \$20,000 have been assessed.
